

Dimensions

Height	2 574mm
Width	1 232mm
Depth	1 744mm
Feed Height	1 470mm
Power Supply	415V 3 Phase
Motor	1.5kW + 0.55kW
Drum Rotation Speed	20rpm
Noise Level	55dB
Cycle Time	Pre-set
Weight	900kg

Loading Aperture Sizes

Height	662 mm
Width	1 052 mm

Features

- High compaction force optimising transport payloads
- Suitable for a range of waste material
- Easy & safe to operate
- Robust design & build - engineered for long life and optimum performance

Optional Extras

- Custom feed hopper
- Roof
- Water sprinkler system
- Odour control
- Pull-down chute
- Special-purpose compaction head

Dimensions and technical information without obligation. Subject to change.

Size Comparison

A compaction drum that spins 360°

Compaction Ratio
Up to 6:1

Motor
1.5kW & 0.55kW

Waste Types
Cardboard,
General Waste &
Processed Food
