The GP-Mini can process 500-1000 pounds of glass per/hour and accepts all types of glass. You will get a sand and gravel material without sharp edges. Weighing only 2000 pounds, the GP-Mini is the most compact and mobile Pulverizer available. The unit features an integrated trommel which separates the residue (caps, labels, and corks)

- Quiet Operation
- Simple to operate and maintain
- Shipped complete and ready for operation
