

The **Eagle Sidewall Cutter** is a high-performance tyre cutter for cars and trucks, offering enhanced safety and functionality. It includes an optional tread cutter for tyre downsizing and features a protective shroud for operator safety and visibility.

Available in both mobile and stationary models, it has a durable serrated alloy blade and a hydraulic lift to eliminate manual lifting. Customers can select from electric, gas, or diesel power options, making it ideal for tyre shops and facilities handling end-of-life tyres.

Features

- Hydraulic bead adjustment
- Hardened alloy, serrated blade
- Portable and stationary configurations
- No manual lifting of tyres – simply roll onto the hydraulically powered tyre lift
- Average cycle time 11 seconds / truck tyres
- Average cycle time 7 seconds / car tyres

Options

- Electric, gas, or diesel power options
