

The **Eagle TC Gator** tyre shear effectively cuts through tyres without leaving behind any rubber remnants after each slice. Tailored for tyre shops, auto salvage operations, and tyre processors handling lower volumes, the TC Gator simplifies your tyre recycling and disposal tasks.

With its compact design, the TC Gator is ideal for in-house tyre reduction. Its streamlined cutting action ensures a clean process, minimising the need for additional cleanup.

Features

- 4-sided rotatable blades
- Two-hand hydraulic control
- Cleanly cuts tyres, no rubber remnants
- Cut multiple tyre segments at once
- Average cycle time 10 seconds
- Up to/including 20" 4x4/SUV Tyres

Options

- Power options of electric or gas
