

The Eagle Tuf-Cut II is a powerful and reliable heavy duty tyre cutter designed for demanding industries such as rock quarries, tyre-derived fuel (TDF) producers, cement kilns, large tyre shredding operations, and tyre processing facilities. Its robust design makes it a key solution for handling large volumes of tyres, offering both efficiency and precision.

The Tuf-Cut II tyre shear is designed to cut several car or truck tyres at a time and can destroy tyres weighing up to a ton, with 30 inches across the tread. This makes it an ideal choice for operations that deal with oversized and heavy-duty tyres.

Features

- Accepts up to 29.5x25 - 34 ply truck and OTRs
- Safely cuts up several tyres at a time
- Hydraulic tyre lift
- 4-sided rotatable blades
- Clean cutting design – no additional waste to clean up
- Average cycle time 26 seconds
- Manual roller bed
- Bed roller extensions
- Stationary and portable models available

Options

- Gas or electric motor options
- Electric, Air or Hydraulic Brake options
- Mobile or stationary model options

Specifications

	Mobile	Stationary
Power (optional)	Diesel, Electric, Gas	
Weight	4 618 kg	4 082 kg)
Height	1 950 mm	1 950 mm
Width	1 850 mm	1 850 mm
Length	6 450 mm	4 850 mm
Hitch	2" Ball	-
Axles	Single	-
Suspension	Rubber Torsion	
Brakes (optional)	Electric, Air, or Hydraulic	-
Max Tyre Capacity	29.5x25 - 34 ply	
Av. Cycle Time	26 seconds
