VERTECH

EAGLE INTERNATIONAL

TITAN

PRODUCT SPECIFICATIONS

The Eagle Titan OTR tyre cutter handles tyres up to 27.00 R49, with three hydraulic rollers for precise positioning and a hydraulic probe for secure cutting.

Operator-controlled cut sizes and power options make it an efficient solution for Australian tyre processing.

Features

- Three hydraulic-powered bed rollers
- Hydraulic probe arm for positioning the tyre
- Operator control stand
- Max Tyre Capacity up to (and including) 38" Wide, 8' Diameter

Options

- Electric and Diesel power options

Weight
