EAGLE INTERNATIONAL

TYRE PUNCH CUTTER

PRODUCT SPECIFICATIONS

The patented Eagle Punch Cutter splits Off the Road (OTR) tyres into two halves down the centre of the tread, like a bagel. It mounts onto the tyre and rotates around it.

A blade punches through the rubber while a PLC controls rotation and punching. Operators simply set, start, and let it run.

Features

- Up to 8 minutes per tyre cycle time
- Durable heat-treated alloy punch blade
- Punch cuts up to 8 inches per operation
- Clamp cylinder to allow removal of broken beads
- Max. Tyre Capacity: 70/70-57

Options

- Gas or electric motor options

Weight
2 041 Kg

Motor
Electric, Gas or Diesel

Waste
Truck/OTR Tyres
