

The **Eagle Punch Cutter II** is a mobile cutter for off-the-road tyres, handling sizes from 39-inch rims to 14-foot diameters.

It features manual and automatic modes, cutting 5-6 inches with a 10-inch blade on a rotating turntable. Large tyres are processed in 10-12 minutes, ideal for thick rubber tyres.

#### Features

- Four hydraulic-powered bed rollers
- Durable heat-treated alloy punch blade
- Punch cuts up to 8 inches per operation
- Hydraulically adjustable tire cage
- PLC automatically turns the tire and punches
- Max. Tyre Capacity: 70/70-57

#### Options

- Power options of Diesel or gas
- Automated radio remote control

**Weight**  
12 020 Kg

**Motor**  
Electric, Gas  
or Diesel

**Waste**  
OTR Tyres

## PRODUCT SPECIFICATIONS
